SLIDING/BARN DOORS

Barn Door Hardware

Sliding Door Track & Trolley System

All of our doors come with an SLD-Seal for a secure air-tight fit. Each door panel has a white fiberglass exterior, surrounded by a durable aluminum extrusion. The interior of the door is constructed with black fiberglass and includes a cane bolt for added security and curtain material to prevent light and air from entering the house. Each door panel comes with a heavy duty jamb latch, which locks the doors into place for security, as well as preventing light and air from entering the house.

Specifications:

- 2" x 4" head and sill
- 2" x 6" jamb
- 4" x 4" metal truss plates at corners
- 1-1/2" neopor foam (graphite impregnated)
- .045 FRP (fiberglass) sheeting inner and outer
- PUR hot melt adhesive
- .060 wall aluminum extruded frame
