WALL VENTS

- Significant energy cost savings
- Excellent sealing capability
- Skin on the inside of the door can be black to aid in room darkening
- Promotes excellent air flow
- Very easy to operate

SPECIFICATIONS:

- 2.5 lb. density polyurethane foam-filled 1" thick-insulated panel--R-7 insulation value
- .019 smooth aluminum or .045 fiberglass door skins available in black or white
- .090 extruded aluminum frame
- 2" x 3/4" EPDM rubber cove seal
- (3) Aluminum extruded 1/8" wall hinges with a stainless 1/4" pin
- PVC extruded thrower
- 14 gauge galvanized side deflectors

* It is necessary to routinely lubricate the hinges on all wall vents. We recommend using ZEP Z-Works High Pressure Lubricant, and we sell it by the bottle or the case. Failure to lubricate the hinges could void the warranty.
