## FRAMED TURNOUT DOOR

- The same proven construction and reliability as our E1HDL entry doors
- Optional 2-panel configuration provides added flexibility
  - Large panel for use during warmer months for more bird flow
  - Small panel for use during colder months to help minimize heat loss
- Optional Bump rail on inside of door to guard against bird decapitation

## SLIDING TURNOUT DOOR

- 1- 5/8" capped edge polyurethane injected door panel—R-11 insulation value
- Felt on sides of sliding panel makes panel movement much easier
