Subject: Test Standard Equivalency Statement

Dear Sir (Madam),

The below test standards have been evaluated for differences in test methodology, if any, between tested editions of the test standards and those editions referenced in the Current Florida Building Code. The manufacturer has tested their products to the following test standard edition(s):

- 1) ASTM E 330-02

Chapter 35 of the current Florida Building Code references the following editions of the above mentioned test standards:

- 1) ASTM E 330-14

After review of the above mentioned referenced standards and editions, it has been found that the results and tests carried out meet the requirements for compliance with the standard editions referenced within the Current Florida Building Code. All referenced standards have been found to be equivalent.

Respectfully submitted,

Hermes F. Norero, P.E.
